

Project BG05M9OP001-2.004-0041 “Social inclusion through early childhood development services in Ruse Municipality” under Operational Programme “Human Resources Development” 2014-2020, co-financed by the European Union through the European Social Fund

Total project cost: 588 567,00 BGN

Project implementation period: 27 months

Start date: July 1, 2016

Project objective: The project aims to implement complex early childhood development cares in Ruse Municipality, through which to improve the quality of life of vulnerable groups (children aged 0 to 7 and their parents) as a prevention of social exclusion and overcoming its consequences, respectively reducing poverty.

Activities:

1. Individual pedagogical support for children with disabilities
2. Providing psychological support and counseling of future and current parents for formation and development of parenting skills
3. Family counseling and support, individual and work group with vulnerable groups, in relation to kindergarten attendance
4. Children's health counseling and disease prevention activities
5. Additional pedagogical preparation for improving school readiness, direct work with children with disabilities and their families, including rehabilitation and counseling activities, training, home-based work with children.
