

**Project “Well-developed transportation system in the Euroregion Ruse-Giurgiu for better connectivity with TEN-T network”**

under Programme “Interreg V-A Romania-Bulgaria 2014-2020”

1. Priority axis 1 “A Well Connected Region”
2. Specific objective “Improve the planning, development and coordination of cross-border transport systems for better connections to TEN-T transport network”
3. Duration: 30 months
4. Main activities: Rehabilitation and modernisation of “Lipnik” Blvd, which contribute to facilitating Ruse’s access to the TEN-T network, as well as to improving travel comfort and reducing the number of road accidents. In its Romanian part the project envisages modernisation of 6,5 km of the road network of the town of Giurgiu. It also includes the elaboration of a joint cross-border strategy for improvement of the transport links in the Ruse-Giurgiu region, as well as development of a joint traffic monitoring system.
5. The total project cost for both partners is 15 324 710,52 BGN.
